EDUCATION

Shri G.S. Institute of Technology and Science, India
Bachelor of Technology in Biomedical Engineering

Graduated May, 2025
Cumulative GPA: 7.31/10

TECHNICAL SKILLS

- **Programming Languages:** Python, C
- **Database:** MySQL, PostgreSQL
- **Data Analysis:** NumPy, Pandas, Matplotlib, Seaborn, MS Excel, Tableau, PowerBI, MATLAB (MathWorks), SIMULINK, Standard ML Algorithms (Regression, Classification, Clustering)
- **Developer Tools:** VS Code, Git, GitHub, Brew, Eclipse, IntelliJ, Jupyter Notebook, Google Cloud Console
- **Others:** Analytical Thinking, Attention to Detail, Problem-Solving, Communication Skills, Critical Thinking, Time Management, Adaptability, Team Collaboration, Business Acumen, Curiosity and Self-Learning

WORK EXPERIENCE

Summer Tech Intern

June, 2023 - July, 2023

M/S Biomed Instrument, Indore

- Implemented systematic follow-up procedures that resulted in resolving 98% of all client issues within the first contact point; improved overall engagement levels by ensuring clarity on product functionalities during communications.
- Executed detailed troubleshooting protocols for a range of medical devices, including monitors and ventilators, leading to the identification and resolution of some critical operational issues within a two-week period.

Data Analyst Trainee

April, 2021 - Oct, 2022

Dawoodi Bohra Jamaat Trust, Indore

- Evaluated and rectified data inconsistencies by streamlining data entry processes, achieving a 40% improvement in data accuracy and a 50% reduction in data errors.
- Detected and rectified thoroughly corrected data entry discrepancies by 30 entries per work, significantly enhancing the precision and dependability of the dataset.
- Assessed data storage and retrieval processes in MS Excel by implementing advanced pivot tables and VLOOKUP functions, resulting in a 40% reduction in data processing time.

PROJECTS

NFC Health Hub | Python, Pandas, Flask, Arduino, Web Development, Google Sheet API

- Applied Near Field Communication (NFC) and RFID modules (Mfrc522) for optimized patient data digitization and authorization processes.
- Deployed the integration of Google Sheets API within the Google Cloud Console, enhancing data management workflows, the solution enabled project teams to access live data updates, Enhancing decision-making efficiency by 35%.
- Developed a comprehensive patient prescription management solution utilizing Python Pandas, which analysed 10,000+ prescriptions monthly, drastically reducing manual entry errors and saving over 150 hours of staff time each month.

Nike Sales Data Analysis | Data Analysis, Python, Pandas, Tableau, MS Excel

- Facilitated in-depth analysis of over 2,000 records of Nike sales and manufacturing data Leveraging Pandas, enhancing data quality and structure to support advanced strategic insights.
- Merged two datasets in Tableau, generating dynamic visualizations that identified sales patterns and improved operational performance by 25%.
- Leveraged Tableau's advanced features to discover actionable trends, leading to a 20% increase in sales forecasting accuracy and Streamlining manufacturing processes.

EXTRACURRICULAR

Media Production Manager, Club Kshitij

May, 2022 - Present

- Directed and guided junior members in the video editing team.
- Actively contributed to the success of various club events.

Data Analyst, Indhan PayGate Startup

Jan, 2024 - Present

- Managed data cleansing and maintenance, utilizing PowerBI and Tableau to generate actionable strategic insights.
- Delivered strategic recommendations to enhance data efficiency and streamline operations.
